

Exhibit 6.1 Project Logical Framework

Objective Hierarchy	Performance Indicators (verifiable indicators of objective attainment)	Monitoring Mechanisms (means of verification)	Assumptions (key success factors)
Goal Desired strategic outcomes	High level impact indicators	Specific means or determining whether desired outcome has been achieved	Key factors that must exist to ensure attainment of desired outcome
Purpose/Objective Specific objectives/aims of the project	Expected immediate results after project completion	Specific means or determining whether expected results has been achieved	Key factors that must exist to ensure attainment of expected outputs
Outputs Specific projects deliverables	Desired quality, nature and/or content of the expected output	specific means of determining whether an output has been delivered	Key factors that must exist to ensure delivery of expected outputs
OUTPUT 1			
Activities	Key Inputs	Milestone Indicators	Assumptions
Specific tasks that must be undertaken to ensure delivery of project outputs	Prerequisites to performing the activities	Tangible proof of milestone completion.	Key factors that must exist to ensure completion of the activity
OUTPUT 2			
Activities	Key Inputs	Milestone Indicators	Assumptions
Specific tasks that must be undertaken to ensure delivery of project outputs	prerequisites to performing the activities	Tangible proof of milestone completion.	Key factors that must exist to ensure completion of the activity
OUTPUT 3			
Activities	Key Inputs	Milestone Indicators	Assumptions
Specific tasks that must be undertaken to ensure delivery of project outputs	Prerequisites to performing the activities	Tangible proof of milestone completion.	Key factors that must exist to ensure completion of the activity
